About Us

At TechEFolks, we believe that every company has the potential to be innovative and disruptive—but only if they have access to the right resources and expertise. This is why we provide our clients with a team of experts who can help them with everything from initial strategy to ongoing innovation.

Our solutions are designed to meet your specific needs while being flexible enough to adapt as your business changes over time. With more than 3 years of experience working with enterprise clients and other leading brands worldwide, we know what it takes to make change happen in today's rapidly changing world.

About us

Our Story

We're told that it's a good idea to get out of your comfort zone every once in a while. It's true—it really is. But how do you know when it's time to take that leap?

For Our CEO, the answer was simple: “Why should businesses have all these great ideas, but never actually do anything with them?" this started to feel like a boring old thing.

His goal is to make ideas a reality by bringing together businesses and people from all over the world through digitalized experiences.

That's when he came up with the idea of TechEFolks—digital services that connects businesses with people who want to create incredible experiences together.

Our Stor

Our Mission & Vision:

With a mission to support businesses in transforming experiences, re-imagining processes, and modernizing technology, we enable them to stay ahead of the curve in today’s market.

Our Miss

Our Values

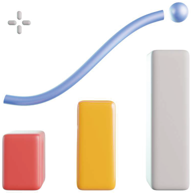
Happy people
We believe that happy employees are the foundation for satisfied customers. We try to foster an atmosphere where employees can be themselves, form connections, and enjoy their work.

Unstoppable team
TechEFolks is a collaborative environment where we rely on the strengths of each individual to contribute to the success of the whole team. Our competitive advantage is rooted in our ability to communicate and share expertise which allows us to draw on the collective strengths of the group.

Our Valu

Our Valu

Our Values



Extreme ownership
We're always looking for opportunities to do better and be better. Even if that means going above and beyond our job roles. We're motivated to keep improving our platform and help our customers succeed. It's this proactive attitude and hunger for success that sets us apart and drives us to be the best.

Growth mindset
We're all about pushing boundaries and unlocking potential - both for ourselves and our customers. We embrace challenges as chances to learn and challenges as concerns with answers waiting to be found. The ongoing potential we each have to improve personally and professionally is a part of the TechEFolks journey.

Why Us?

The client's expectations are the only thing on which we are focused, and we pledge to put them first. We are dedicated to delivering users the greatest experience possible by attending to their needs and offering them the best services in accordance with industry standards. We work together with our clients to ensure that we are meeting their precise needs. We support open and efficient communication with the client to ensure complete comprehension.

Hey!
CTO

RADIANT appliances & electronics

Radiant
CO-FOUNDER

Very good work, fast, and uncomplicated. Flexible and willing to find solutions. Helpful and friendly support. Cooperation at any time, gladly to be recommended.

Hey! Fast turnaround, Minimal, clean and appealing design. Definitely happy to go with, again for new projects.

Good experience with the team while designing and implementing our manpower blue collar HRMS software. The team has understood our requirements and have supported us in implementation of the project as per the promised timelines.
